SUPPLEMENT TO
REPORT NO.

THIS IS UNEVALUATED INFORMATION

An electrical engineering plant is being built at Doudlovec (Doudlewetz, N50/104). One of the three projected workshops will be to the right of the Plzen-Klatovy railroad tracks (as seen coming from Plzen), and the remaining two to the left of the tracks in the direction of the river Radbuza.

The Solo factory for matches and wooden articles in Susice (N50/Q28) has under construction a new workshop, 200 yards long, in which wood-fiber boards are to be manufactured from waste scraps of wood.

The Ocala optical plant at Nyresko (Houern, H50/U99) is being enlarged by the addition of several new workshops.
